7th AMXS named best in ACC

By Senior Airman Matthew Rosine
Dyess Public Affairs

The 7th Aircraft Maintenance Squadron was recently awarded Air Combat Command's 2003 Maintenance Effectiveness Award for large squadron.

"I expected this kind of success from this squadron, but being recognized so quickly at the command level was great," said Lt. Col. James Green, 7th AMXS commander. "I was pleasantly surprised that we won in our first year of existence, the squadron stood up on Aug. 29th last year and was only 14 months old when the award closed out."

According to Green during its first operational year, 7th AMXS has faced and conquered many challenges. The squadron deployed as part of the largest B-1 bomber deployment in history -- all on time.

The 7th AMXS has also successfully handled three bomber surges -- the first while deployed to Anderson Air Base, Guam and two at Dyess. During the most recent surge Dyess bombers were able to successfully launch 114 flights in 68 hours resulting in 321 simulated bombing runs.

The maintenance squadron has also been able to meet and beat ACC's Mission Capability Rate for the first 12 months of its existence. Dyess' B-1 MC rate accomplishment was a feat no bomber community has ever achieved.

Green attributes much of the squadron success to a good start.

"This didn't just start today," he said. "The men and women that formed the squadron when we stood up were already professional maintainers at Dyess in the 9th, 13th and 28th Bomb Squadrons. We took the best practices and successes from each former bomb

Visitor center moves to Dyess Memorial Park

By Senior Airman
Matthew Rosine
Dyess Public Affairs

The 7th Security Force's Squadron will move its visitor control center operations from the front gate to the Dyess Memorial Park Museum Center Monday.

The move is being made so that construction can be done on the current front gate visitor's control center.

"This construction project will provide some valuable improve-

ments to our force protection capabilities," said Capt. Patrick Steen, 7th Security Forces Squadron operations officer. "This includes a new search pit and new parking lot at the front gate."

The construction project should be completed by next summer.

The VCC will begin operating at its new location at 6 a.m. Monday. The VCC will maintain its operations at the memorial park until construction is completed.

Visitor passes and vehicle regis-

tration will resume as normal once operations begin.

"Our customers shouldn't see any delays," Steen said. "Everything should be transferred and up a running to meet their needs with as little inconvenience as possible."

Signs will be posted to help direct traffic to the memorial park.

For more information, call Tech. Sgt. Michael Moreno at 6-8545 or the VCC at its new number at 793-2199.

Leadership Today

"The power of your example"

By Col. Jeffrey Beene
7th Operations Group
commander

Of all the things that can be said about leadership, the most important thing for me is embodied in one word: example. Good, bad, or indifferent, we all set one. The example is very powerful. And it cannot be underestimated as a principle of leadership. We develop our leadership by emulating those who set the best examples.

One of my favorite Bible verses, Titus 2:7, says it best for me, "In everything, set them an example by doing what is good...." How many times has someone conveyed to you that it is not what a particular person said that motivated you, but what they did that made the difference? A leader earns confidence and loyalty through his or her actions. Whether he or she -- at whatever level of responsibility -- is willing to go the extra mile for the troops and is willing to do whatever the troops are required to do.

One of my mentors, my first "Air Officer Commanding" from my Air Force Academy cadet days, described it this way: your example must be one of "individual responsibility, self-discipline and high standards." I think you will find these are very easy to remember and apply because they translate nicely into our Air Force core values of "Integrity First," "Service Before Self" and "Excellence in All We Do."

As you can see, there is nothing new here. They are all time-tested and proven. And, regardless how you say them, these tenets are at the foundation of setting the example for others to follow. They apply to the newest airman or the most senior four-star general. The only thing that changes is the scope of responsibilities.

Some might say, "Well, I can set an example while I'm at work." Or, "This doesn't matter because I'm not on duty." While one can say this and maybe even believe it, their "on duty" example will soon be discovered for what it is: inconsistency. Your true example is a manifestation of your character -- the example you set when no one is looking. Character is at the core of leadership; both are developed through deliberate learning, practice, testing and perseverance.

Practically, setting the example means several things. For the commander, it means leading from the front, not from the top. For leaders at all levels, it means doing the best at whatever task you have been assigned and having the courage to get involved, make decisions and take charge when required. As Gen. Hal Hornburg described to us during his recent visit, this is being an "analog" leader. As high-tech, or "digital," as the Air Force is, it requires analog leadership -- all the time. I encourage you to set the example, lead and expect to do something great for your nation and your Air Force today!

ing new here. They are all time-tested and proven. And, regardless how you say them, these tenets are at the foundation of setting the example for others to follow. They apply to the newest airman or the most senior four-star general. The only thing that changes is the scope of responsibilities.

Stay pumped up -- Team Dyess is on top. We've bot seven days of ORE ahead of us and based on the big improvement made during the last exercise, we're doing very good and soon to be doing awesome!

More importantly, you've just come off nine days of showing the best combat team to two of our country's most influential defense leaders -- matter of fact, the performance for the SECAF visit is the best that I've seen in more than 20 years of Distinguished Visitor events. Every aspect of Dr. Roche's short stay with us was done perfectly. You showed him why Team Dyess is the best -- because of you patriotism, enthusiasm and dedication!

ACTION LINE

The Action Line provides a direct line of communication between Col. Jonathan George, 7th Bomb Wing commander, and the people of Dyess. As a general rule, people should use their chain of command or contact the agency involved first. However, if you are not satisfied, call 6-3355 or e-mail action@dyess.af.mil and leave your message. All messages will receive a response. Leaving your name and phone number ensures you will receive a personal reply by phone. The Peacemaker staff reserves the right to edit all incoming Action Lines before publication. Not all Action Lines may be published.

Comment: Just after moving onto base, I received a citation for my carport being used as storage. I have only been in base housing for a month and a half, so I am still trying to get things into my house. I also notice that some carports have been covered with lattice work and then used as storage. Is this acceptable?

Col. Jonathan George

Response: Carports are not intended for storage. Non-temporary storage is authorized within the first 30 days after move-in for furniture and items that will not fit in the quarters. Typically, the side of older units' carports have a wooden enclosure which can be used for storage. If your house does not have an enclosure, you may install lattice work at your own expense after completing an Air Force Form 332 at the housing office and having it approved.

Housing residents are also reminded that yard inspections are conducted every Tuesday.

We all know the stress of moving and understand the family's effort to make the new house fit. Don't worry too much -- do the best you can, work hard at keeping your home neat and give housing a call if you need help -- if that doesn't work, call me.

Combined Federal Campaign '03 UPDATE

current as of Oct. 29

Dyess has reached 85 percent of the base goal toward the 2003 Combined Federal Campaign. The CFC campaign ends today.

For more information, contact your unit CFC representative and read next week's *Peacemaker* for final results.

Dental flight, life skills move to Dyess clinic

Story and photo by
Airman 1st Class Kiley Olds
Dyess Public Affairs

The 7th Aeromedical Dental Operations Squadron dental services flight and the 7th Medical Operations Squadron life skills flight moved to their new location on the third floor of the Dyess clinic last week.

"Relocating the life skills and dental services flight into the main clinic building will allow beneficiaries to enjoy one stop shopping for their medical care," said Lt. Col. Marlin Moore, 7th MDOS life skills flight clinical psychologist.

First planned seven years ago, the \$4.2 million renovation project resulted in optimizing the available space in the medical group building, while centralizing critical medical services under the same roof, said Lt. Col. John Adkins, 7th Medical Operations Squadron life skills flight commander.

"Being in the Medical Group building makes it more convenient for patients to get their care," said Adkins. "It enables the timely exchange of information between

Capt. Michelle Wierzbowski and Valarie Davidson, 7th Aeromedical Dental Operations Squadron, put a filling in a tooth cavity for a patient in the new dental clinic. The dental clinic and life skills have moved their work centers to the Dyess clinic and are now open for business.

patients and other patient care medical providers."

Other medical officials agree.

"In the other building we didn't have any physicians, physician assistants or nurse practitioners," Moore said. "Now that we're co-located, emergent patient care is closer to us than before."

With the move complete and

more patient services centrally located, medical officials feel customer wellness will be improved.

"The renovation, integration and re-equipping of the dental services and life skills flights are a giant step forward in the provision of health, wellness and preventive services to our warriors and beneficiaries," said Lt. Col. Woody Baker,

7th ADOS dental services flight commander. "It assures they are healthy and ready to meet the call."

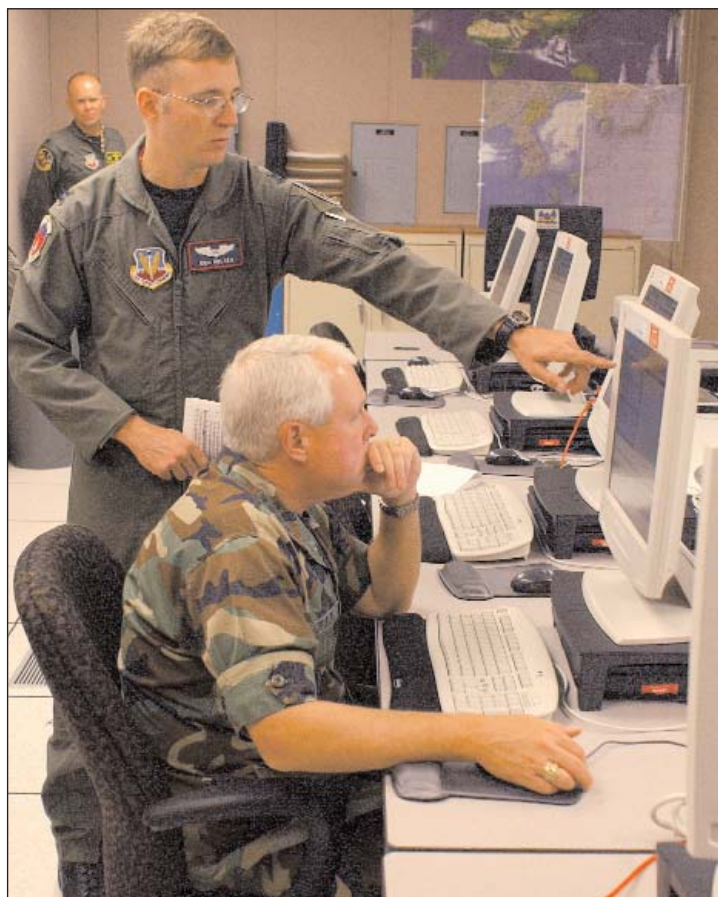

The previous dental clinic design and equipment used old technology and did not provide the best environment to support the delivery of state-of-the-art dental health care, Baker said.

The new dental clinic now has more space, including brand new equipment, 18 dental treatment rooms, two X-ray rooms and a new oral surgery room, said Senior Master Sgt. Glenn Elder, 7th ADOS superintendent.

The dental services and life skills flight hours of operation are from 7:30 a.m. to 4:30 p.m., Monday through Friday. Sick call hours for dental services are offered at 7:30 a.m. and 1 p.m. Monday through Thursday and every Friday at 9:30 a.m. and 1 p.m.

In a case of an emergency after business hours, a life skills flight provider can be reached by calling the medical information center at 6-2334.

For more information, call dental services at 6-2304 or life skills at 6-5380.

Hornburg a computer system used for B-1 pattern management. Gen. Hornburg stopped at the mission planning cell while touring work sections during his visit.

Dyess reminded of Halloween safety

By 2nd Lt. Ben Gamble
Dyess Public Affairs

Dyess safety officials remind people that safety is everyone's responsibility at all times, especially during Halloween festivities.

Although most people know there are small children out at night on Halloween, the number of deaths is still four times higher on Oct. 31 than any other night of the year, according to the Centers for Disease Control and Prevention.

When preparing for Halloween events, parents can do many things to help their child's safety.

"By taking some basic precautions, Halloween can be an exciting and memorable experience for parents and children alike," said Bo Wells, 7th Bomb Wing ground safety manager.

Children should always carry a flashlight and wear shoes that fit. Trick-or-treaters must also obey all traffic signs and signals, and use

crosswalks whenever they are available. Parents should ensure that their child's costume is flame-retardant. This can be done by checking the tag on the costume. Parents should also make certain their child's costume does not drag on the ground or pose a tripping hazard and be sure they have money to call home in an emergency.

As a homeowner, several things can be done to ensure the safety of trick-or-treaters, said Dyess safety officials. One is ensuring there are no potholes or other obstructions in your yard children could trip over.

Homeowners need to find a safe place to keep their animals because Halloween typically attracts many unusual visitors to residences, pets may become agitated.

By following these simple safety rules, parents and children can both have a safer Halloween experience.

"Remember, a safe Halloween is a fun Halloween," Wells said.

Photos by 2nd Lt. Ben Gamble

Colton Quakkelaar, son of Staff Sgt. John Quakkelaar, 317th Aircraft Maintenance Squadron aircraft hydraulics systems craftsman, borrows a hat from a scarecrow at the Dyess Child Development Center's Fall Festival Oct. 10. The children created the scarecrows, as well as the banners, muffins and hot cocoa enjoyed at the festival.

Children at the Dyess Child Development Center enjoy the fall weather at the CDC Fall Festival Oct. 17. As Halloween approaches and children are once again dressed in costume, Dyess safety officials remind parents to ensure their children are accompanied as they go trick-or-treating and obey all traffic signs and signals. Parents are also urged to have their children wear some form of reflective material on their costumes. Since Halloween is celebrated after the sun goes down and because costumes are typically composed of darkly-colored material, trick-or-treaters should never assume an approaching motorist can see them.

Halloween safety tips

Traffic safety

- Be careful when crossing the street.
- Walk on sidewalks, not in the street.
- Walk on the left side of the road, facing traffic if there are no sidewalks.
- Walk, do not run, from house to house.
- Do not cross yards and lawns where unseen objects or uneven terrain can present tripping hazards.

Costume Safety

- Make sure the material is fire resistant.
- Choose bright colors or add reflective tape.
- Make sure the costume is not a tripping hazard.
- If it is cold outside, wear warm clothes under the costume.

If not accompanying your children...

- Have them trick-or-treat in familiar neighborhoods -- at homes of people you know.
- Tell them to go to the nearest well-lit house and find an adult if they are approached by a stranger.
- Tell them to not trust anyone they don't know or recognize.
- Make sure they wear a watch and know when their curfew is.
- Make sure they have enough money to call home in case of an emergency.
- Tell them to not eat any candy until you inspect it first.
- Make sure both you and your children know the route they will be taking.

Seventy-one Dyess airmen promoted

By Senior Airman
Matthew Rosine
Dyess Public Affairs

Seventy-one Dyess people add a stripe in November. They are:
To senior master sergeant:
Bryan Bolin, 7th Aircraft Maintenance Squadron
Raymond Huff, 7th Communications Squadron

To master sergeant:
Daniel Baucum, 317th Aircraft Maintenance Squadron
Ronnie Bragg, 7th AMXS
Eric Brown, 7th Medical Operations Squadron
Walter McCullough, 7th AMXS
David Varkony, 7th AMXS

To technical sergeant:
Benjamin Adcock, 7th Munitions Squadron
Edwin Bruno, 7th AMXS
Duane Fairbanks, 11th Air Support Operations Squadron

Thomas Guthrie, 7th AMXS
Charles Harr, 7th Logistics Readiness Squadron
Joseph Hart, 7th AMXS
Rebecca Ingram, 7th MDOS
Jose Lopez, 7th LRS
Marco Salinas, 7th LRS
Camilla White, 7th LRS
Jack Williams, 7th Aeromedical Dental Operations Squadron

To staff sergeant:
Janaine Paige, 436th Training Squadron
Matthew Patton, 7th AMXS
Rogelio Ramos, 40th Airlift Squadron

To senior airman:
Jessie Arnold, 11th ASOS
Michael Bilharz, 7th AMXS
Andrew Bohan, 317th AMXS
Jennifer Boone, 7th Bomb Wing
Lorentz Bunger, 7th AMXS
Daniel Burton, 7th AMXS
Claudiu Caldarescu, 7th AMXS

Michelle Champlain, 7th LRS
Ochshalay Davis, 7th Services Squadron
Brant Gleaton, 317th AMXS
Derick Heaton, 317th AMXS
Jeffrey Hopper, 7th AMXS
Jesse Johnson, 317th AMXS
Matthew Jolly, 317th AMXS
Jonathan Legatt, 7th LRS
Jarrold Nave, 7th LRS
Michael Peeler, 7th LRS
Victoria Saenz, 7th SVS
Gerald Strauss, 317th AMXS
Ryan Summers, 7th CS
Matthew Taylor, 7th AMXS
David Turner, 317th AMXS
Carroll Watkins, 7th AMXS
Robert Will, 317th AMXS
Matthew Yost, 7th CS

To airman first class:
Santhus Anderson, 7th AMXS
Ryan Bullock, 7th Civil Engineer Squadron
Jennifer Cabarloc, 7th LRS
Herbert Dungca, 7th SVS
Uwemediimo Essien, 7th MDOS

Nicholas Flugel, 7th AMXS
Justin Gettler, 40th AS
Jonathan Gonzalez, 7th MUNS
Megan Grummel, 7th Medical Support Squadron
Elizabeth Hanson, 7th ADOS
Rory Havens, 7th AMXS
Heidi Herman, 7th MDOS
James Johnson, 7th AMXS
Brian Kozakiewicz, 7th AMXS
Corey Lee, 7th Comptroller Squadron
Adrian Mejia, 7th CPTS
Lonnie Pesterfield, 7th Bomb Wing
Hong Pan, 7th SVS
Kieyondra Price, 7th LRS
Leonor Roman, 7th AMXS
Tiffany Smith, 7th LRS
Bufurd Stover, 436th TS
Nicole Suarez, 7th LRS
Nicholas Tomasini, 7th CES

To airman:
Sarah Kavaky, 7th Contracting Squadron

TEAM DYESS

Warrior of the Week

Staff Sgt. William Savage

Unit: 7th Services Squadron

Job description: Fitness center operations director

Time in the Air Force: Nine years and eight months

Time at Dyess: Three years and four months

Hometown: Jacksonville, Fla.

Family: wife, Melanie

Job impact on the mission: I ensure all daily fitness center operations run smoothly such as facility sanitation, maintenance, resale, resource protection, personnel scheduling and customer service.

Career goal: Make a career out of the Air Force and earn my bachelor's degree.

Best Air Force memory: Working in intercontinental ballistic missile alert facilities at Malmstrom Air Force Base, Mont.

Editor's note: Squadron commanders, first sergeants or supervisors can nominate people in their units to be the Dyess Warrior of the Week. To nominate a Warrior, call Senior Airman Matthew Rosine at 6-4375. All nominees must be cleared through their squadron leadership.

Airman Shawn Baldauf

TEAM DYESS

7th SVS profile

Leaders:**Commander:**

Lt. Col. Terrie Ford

First Sergeant:

Master Sgt.
Doug Bingham

Personnel:

- Officers: Five
- Enlisted: 82
- Civilians: 317

Mission statement:

To provide unparalleled services to Team Dyess.

Future goals:

- Personal accountability
- Improve communication
 - Improve training
- Take care of our people
- Process control and refinement

Airman 1st Class Ryan Summers

Airman 1st Class Aaron Cook, 7th Munitions Squadron trailer maintenance, replaces a tire on a trailer. According to 7th Aircraft Maintenance Squadron officials, receiving Air Combat Command's 2003 Maintenance Effectiveness Award for a large squadron would not have been possible without support from the 7th Equipment Maintenance Squadron, 7th Component Maintenance Squadron, 7th MUNS, 7th Maintenance Operations Squadron and the 7th Logistics Readiness Squadron.

AMXS

Continued from Page 1

Green added that while each aircraft maintenance unit still has ties with the flying squadron they support, they all work as a team.

"We now have 860 people working toward the same goal, doing business the best way we know how and that breeds success," said Green.

However, squadron officials say no singular entity is responsible for the unit's success.

"It wasn't me that won this," Green said. "In the past year, I haven't launched a single B-1, turned a single wrench,

responded to a single 'red ball' or issued a single part from the Combat Oriented Supply Organization. The men and women out there doing the work are the ones who truly earned this award. It's an honor to command this squadron and to be able to bask in the glow of their success."

Green is also quick to point out the 7th AMXS didn't win this award alone.

"We couldn't have won this award at all without the top quality support of EMS, CMS, MUNS, MOS and LRS," Green said. "This wasn't an individual accomplishment by any stretch.

"This was a team success by the whole squadron and all of the folks who support us."

Do your part, be water smart!

Dyess members urged to complete AF survey

By Scott Hopkins

Air Force Manpower and Innovation Agency

RANDOLPH AIR FORCE BASE, Texas -- Since its launch Oct. 1, more than 25 percent of Air Force people have taken advantage of the opportunity to speak to their leaders through the 2003 Air Force Climate Survey.

The survey's importance hinges on maximum participation and the more people who participate, the better the results, officials said. The deadline is Nov. 23.

"If you don't complete the survey, you're basically foreiting your right to complain," said John Ruzinsky, 7th Bomb Wing manpower chief and base survey monitor.

"100 percent participation is definately preferred, but realistically we are shooting for at least 65 percent," Ruzinsky said.

He said Dyess has been making a lot of headway recently, but is still well short of the goal.

"Our goal is to make things better for our people and our organizations," said Air Force Chief of Staff Gen. John Jumper. "This is a great opportunity for you to provide direct feedback about how well your leadership and organizations are functioning."

The survey gives leaders honest, identity-protected feedback about the organization from the people who make that organization work. It measures factors that influence people's behavior and factors that are relatively enduring over time, officials said. Leaders at all levels can use this information to improve an organization's climate and to ultimately improve its effectiveness and productivity.

The survey also serves as an important link between senior leaders and civilians. Through the survey, civilians can voice their concerns and provide valuable information that can improve their organizations, officials said.

Aeronautical Systems Center

officials at Wright Patterson Air Force Base, Ohio, applied several new initiatives as a result of the feedback received from the 2002 survey. Officials from the center's financial services office received a new telephone system with voice-mail capability, and they eliminated hardcopy travel vouchers, which stopped costly "assembly line" work when mailing out travel vouchers. Section workers developed an automated self-help tool for travelers giving technicians more time to work complex inquiries.

These actions demonstrate participative leaders, officials said. According to published research, sound management practices lead to increased employee and customer satisfaction, loyalty, better retention and increased financial performance.

To safeguard personal information, only Air Force-level analysis is done on personal information. Questions that ask for a respondent's Air Force Specialty Code, rank or grade, time on station, etc., will be briefed to the secretary of the Air Force and the Air Force chief of staff; that information will not be released elsewhere.

Multiple levels of protection are built into the system. For example, a squadron report will list respondents by number of officers, enlisted members and civilians -- not by rank or grade. And, each breakout can be made only if there are at least seven respondents in that category.

For example, if there are three officers, eight civilians, and 10 enlisted responding in a squadron, the officer data will be included in the next smallest breakout--the civilians. The data will be labeled as "10 enlisted" and "11 other."

The 30-minute survey can be completed online at <http://afclimatesurvey.af.mil> anytime during the survey period from either a government or personal computer. People can also click on the Air Force Climate Survey link at Air Force Link, www.af.mil.

10 Dyess members receive Articles 15

By Tech. Sgt. Karen Graves
7th Bomb Wing legal office

Ten Dyess airmen recently received Articles 15. In each article 15, the member's commander considered the offense and based the punishment on individual circumstances.

These circumstances included, but are not limited to the nature of the offense, the record of the service member, and the effect of the punishment. Some or all of these members were subsequently administratively discharged. Names of Article 15 violators are not released.

- A senior airman received a suspended demotion to airman first class, forfeiture of \$721 pay and a reprimand for adultery, false written statement and misuse of the government travel card. The airman violated Uniform Code of Military Justice Articles 107 -- False Statement; 92 -- Dereliction of duty; and 134 -- Adultery.

- A senior airman was demoted to airman first class and fined \$764

for showing up late to work. The airman violated UCMJ Article 86 -- Failure to go to appointed place of duty.

- An airman first class was demoted to airman and suspended forfeitures of \$645 pay per month for two months for underage drinking. The airman violated UCMJ Article 92 -- Dereliction of duty.

- An airman first class was demoted to airman for failing to complete an inventory as directed. The airman violated UCMJ Article 92 -- Dereliction of duty.

- An airman first class was given a suspended demotion to airman, restriction to base for 30 days and 15 days extra duty for failing to show up to work on time. The airman violated UCMJ Article 86 -- Failure to go to appointed place of duty.

- An airman was demoted to airman basic, restricted to base for 45 days, given 45 days extra duty and a reprimand for driving on base while driving privileges were revoked. The airman violated UCMJ Article 92 -- Dereliction of duty.

- An airman first class was demoted to airman, restricted to base for 45 days, given 45 days extra duty, and a reprimand for driving under the influence of alcohol. The airman violated UCMJ Article 111 -- Driving under the influence.

- An airman first class was given a suspended demotion to airman and 30 days extra duty for entering another person's dormitory room without permission. The airman violated UCMJ Article 134 -- Unlawful entry.

- An airman first class was demoted to airman and restricted to base for 45 days for driving under the influence of alcohol. The airman violated UCMJ Article 111 -- Driving under the influence.

- An airman was given a suspended demotion to airman basic, forfeiture of \$100 pay per month for two months, 45 days extra duty, and a reprimand for driving under the influence of alcohol and underage drinking. The airman violated UCMJ Article 111 -- Driving under the influence and Article 92 -- Dereliction of duty.

Individuals with prior misconduct usually receive more severe punishment than first-time offenders. Punishment for similar offenses may vary based on factors not listed here. When punishment is suspended, it does not take effect unless other misconduct occurs, generally within the six months following the Article 15.

Dyess focuses on drug awareness

By 2nd Lt. Ben Gamble
Dyess Public Affairs

This week, the Red Ribbon Celebration has been providing Dyess airmen information about how to give people the knowledge, courage and judgment to reject drug abuse and to help their friends do the same.

The Dyess Drug Demand Reduction Program Office has hosted several events since Monday to focus the base's attention and commitment to a healthy and drug-free lifestyle.

"Drug use is a very complicated issue and no single person, book or newspaper article has all the answers," said Theodis Talbert, Dyess Drug Demand Reduction Program manager. "Many of our children are going to find out about drugs from unreliable sources. It is everyone's responsibility to help our children get the right information."

Information has been the primary focus of many events the office

"Many of our children are going to find out about drugs from unreliable sources. It is everyone's responsibility to help our children get the right information."

Theodis Talbert
Dyess Drug Demand Reduction
Program manager

has sponsored this week, according to 7th Medical Group officials. A large informational display was offered in front of the base exchange and the Dyess Youth Center received a presentation about drug prevention and substance abuse. The office also brought the facts about drug use to the Junior Reserve Officer Training Corps cadets of Abilene High School.

Knowledge is a powerful weapon

against drugs, Talbert said. The DDRP office also carries videos, books and pamphlets on drug prevention that can provide a good foundation for educational efforts with children.

"Drug abuse is a significant threat to our nation. It's a leading cause of preventable disease, accidents, crime and death," Talbert said. "Drug abuse tears at the very fabric of our community, rips apart our family, destroys human potential and threatens mission readiness. As stewards of America's future, we must all work together to reduce drug use."

The DDRP office highly encourages parents to discuss drug abuse with their children. To assist in these conversations, the office offers videos and pamphlets showing how to discuss drug use with children.

The Red Ribbon Celebration was born of an event that took the life of a drug enforcement officer, Special Agent Enrique Carmarena, in 1985.

Carmarena was killed in the line of duty while working on an undercover assignment.

For more information, contact the Drug Demand Reduction Program Office at 6-1751.

26 airmen re-enlist

By Senior Airman Zachary Wilson
Dyess Public Affairs

Twenty six Dyess enlisted members recently raised their right hands and took the oath of enlistment. The individuals are:

- Senior Master Sgt. James Dowdy, 7th Logistics Readiness Squadron
- Master Sgt. John Reid, 7th Equipment Maintenance Squadron
- Master Sgt. Sonya Salisbury, Detachment 14
- Master Sgt. Barry Holland, 317th Aircraft Maintenance Squadron
- Tech. Sgt. William Atwood, 7th Munitions Squadron
- Tech. Sgt. Jennifer Bufford, 436th Training Squadron
- Tech. Sgt. Kenneth Gavin, 7th Communications Squadron
- Tech. Sgt. Marc Geissler, 7th AMXS
- Tech. Sgt. Sheldon Scheelhle, 7th LRS
- Tech. Sgt. Carmelita Williams, 7th Component Maintenance Squadron
- Tech. Sgt. Donna Washburn, 7th AMXS

- Staff Sgt. Lowell Callahan, Jr., 7th AMXS
- Staff Sgt. Josephine Locke, 7th AMXS
- Staff Sgt. David Cabrera, 7th Security Forces Squadron
- Staff Sgt. Jonathan Wilcox, 7th CMS
- Staff Sgt. Aaron Isaacs, 7th CMS
- Senior Airman Cedric Baxter, 7th MUNS
- Senior Airman Christopher Davis, 7th MUNS
- Senior Airman Kevin Evans, 317th Maintenance Squadron
- Senior Airman Isaac Guerra, 7th CMS
- Senior Airman Gerald Karkiewicz II, 7th CMS
- Senior Airman Jason McGourik, 7th CS
- Senior Airman Erika Sheridan, 7th LRS
- Senior Airman Thomas Spuhler, 7th CMS
- Senior Airman Melissa Watkins, 13th Bomb Squadron
- Senior Airman Tinikkie Whitfield, 436th TS

Docket

Continued from Page 9

In addition to the ten Articles 15, two Dyess airmen were court-martialed in September.

On Sept. 17, a panel of officers and enlisted members convicted Airman 1st Class Stevie Thompson, 7th Component Maintenance Squadron, in a special court-martial. Thompson pled guilty to one specification of absent without leave and one specification of wrongful use of his

government travel card. He was found guilty of these charges. Thompson received 83 days confinement, 60 days hard labor without confinement, forfeiture of \$500.00 pay and reduction in grade to E-1.

On Sept. 18, a summary court officer convicted Airman Jonathan Spiller, 7th Aircraft Maintenance Squadron, in a summary court-martial. Spiller pled guilty to one specification of wrongfully breaking base restriction and was found guilty of this charge. Spiller received 30 days confinement and forfeiture of \$767 pay.

Trick-or-treat hours

Trick-or-treating hours in base housing are 8 to 10 p.m. tonight.
For more information, call the housing office at 6-2150 or the 7th Security Forces Squadron law enforcement desk at 6-2131.

OSC charity auction

The Dyess Officers’ Spouses Club’s annual charity auction is from 6 to 9 p.m. Nov. 14 at The Heritage Club.
The auction will include a dinner, live and silent auctions and entertainment.
Reservations are due by Nov. 12.
For more information, call Nessie Norris at 698-5617 or Susan Weaver at 698-5279.

Airmen’s Attic open

The Airmen’s Attic is open from 9:00 a.m. to noon Nov. 8.
Active duty members who need uniform items can shop from 7:30 a.m to 4:30 p.m. Monday through Friday.
For more information, call 6-5999.

Allergy clinic change

Shots are administered Wednesdays from 7:30 to 9:30 a.m. and 3 to 4:30 p.m. at the allergy and immunization clinic.

For more information, call Staff Sgt. Prunty at 6-1788.

Traffic construction update

Motorists driving from the 7th Medical Group clinic can not make a left turn from Louisiana Road to exit the main gate. 7th Security Forces Squadron has barricaded the former left turn lane and posted a sign prohibiting the turn.
For more information, call 6-2131.

Phony “MyPay” site

Air Force officials caution people on a false “MyPay” web site. The bogus web site is located at <http://www.mypay.com>. Although the site may seem official and contain common acronyms such as “LES” and “DFAS,” people logging on to the site risk divulging personal information to agencies outside of the Department of Defense.
The correct MyPay web site is at <https://mypay.dfas.mil/mypay.asp>.
For more information, call 7th Comptroller Squadron at 6-4193.

Igloo move

The used oil igloo previously located behind the youth center in base housing has been re-located to the base shoppette.
Dyess members wishing to dispose of used oil

can do so at anytime at the new location. However, used oil filters can only be disposed of at the Dyess Auto Skills Center.
For more information, call Floyd Brigham at 6- 5866.

Watering restrictions

Dyess has implemented stage one watering restrictions.
In stage one, watering is permitted only once a week from midnight to 10 a.m. and 6 p.m. to midnight on a day determined by the last digit of the house address.
If the last digit of the house address is 7 or 8, water on Sundays; 9, Mondays; 0, Tuesdays; 1, Wednesdays; 2, Thursdays; 3 or 4, Fridays; 5 or 6, Saturdays.
For more information, call the 7th Civil Engineer Squadron housing flight at 6-2150.

Gate hours

- **The Tye Gate** is open from 5:45 a.m. to 6 p.m. Monday through Friday.
- **The Delaware Gate** is open for housing residents only from 6:30 to 8:30 a.m. and 1:50 to 4:30 p.m. Monday through Friday, and 9:30 a.m. to 12:30 p.m. Sundays.
- **The Maryland Gate** is open to school pedestrians and construction vehicle traffic from 7:15 to 8:30 a.m., and 3 to 4 p.m. Mondays through Fridays.

COMMUNITY

Toastmasters

The Dyess Toastmasters meet at 11:45 a.m. Tuesdays at The Hangar Center.

The group is designed to help people improve their speaking and presentation skills and build leadership abilities.

The meetings are open to everyone.

For more information, call 6-1046.

'Tots' reading hour

The Tiny Tots reading hour starts at 10 a.m. Tuesdays at the base library.

For more information, call 6-2618.

Shoppette hours

The Dyess Shoppette is open from 6:30 a.m. to 10 p.m. Monday through Thursday; 6:30 a.m. to midnight Friday; 10 a.m. to midnight Saturday; and 11 a.m. to 10 p.m. on Sunday.

For more information, call 6-4368.

Thrift shop hours

The Dyess Thrift Shop is open from 9 a.m. to 2 p.m. Tuesdays and Thursdays and the first Saturday of the month from 10 a.m. to 1 p.m.

Consignments can be taken from 10 a.m. to 1 p.m. Tuesdays, Thursdays and the first Saturday of each month.

The thrift shop is located at 382 4th Ave., across from temporary lodging.

For more information, call 696-8203.

EDUCATION

Language testing

Spanish Language Proficiency testing will be conducted at 7:30 a.m. Oct. 20 and Dec. 9 at the military personnel flight.

People wanting to take the test must have at least a secret security clearance. Testing is limited

Airman 1st Class Kiley Olds

Code Blue

Tech. Sgt. Jose Lopez, 7th Aeromedical Dental Operations Squadron dental services flight NCO-in-charge, performs cardio-pulmonary resuscitation on a dummy during a mock "Code Blue" Wednesday. Code Blue is announced when a patient is unresponsive and not breathing. During a Code Blue, the entire medical group responds. The medics have Code Blue drills every quarter.

to five people per session and is conducted on a first-come, first-serve basis.

The Air Force does not pay Foreign Language Proficiency Pay for Spanish unless a member goes to an approved location and speaks Spanish there daily for official purposes.

Language certification is valid for one year from the test date.

For more information, call John Bullard at 6-5763.

CHAPEL

Chapel schedule

Catholic: Reconciliation starts at 4:15 p.m. Saturday followed by Mass at 5 p.m. Sunday Mass is at 9 a.m. Sunday School is 11 a.m. at Dyess Elementary School. Daily Mass is at 11:30 a.m. Tuesday through Friday.

Protestant: Sunday School begins at 9:15 a.m. at Dyess Elementary School.

Shared faith worship begins at 11 a.m. Sunday. Gospel service starts at 1 p.m. Sunday. Sunday Night Worship Service begins at 6:30 p.m. Sunday. A nursery and children's church are available at all services.

• **Bible study:** The Protestant Singles group meets for Bible study at 9:15 a.m. Sundays at Dyess Elementary School. The 7th Operations Group Bible Study meets from 6:30 to 7:15 a.m. Tuesdays at the 28th BS auditorium.

• The "Hope for Hurting" divorce support group meets from noon to 1 p.m. Mondays in the chapel annex.

• For the Sunday Night Worship Service there will be a discipleship seminar entitled "Biblical Self-Confrontation" from 6:30 to 8 p.m.

The base chapel has information about other religious services and activities in the Abilene area.

For more information, call the base chapel at 6-4224.

MEDICAL

Cancer screenings

The 7th Medical Group Women's Health Clinic has openings for annual cervical cancer screenings for Tri Care Prime patients.

For more information, call the 7th MDG Women's Health Clinic at 6-5432.

OFF BASE

Ft. Davis

Outdoor recreation is sponsoring a trip to Ft. Davis, Texas Nov. 8-11. Visitors will spend three days and three nights at the Prude Ranch and experience the old west.

The cost is \$230 per person.

Transportation and meals are included in the cost.

For more information, call outdoor recreation at 2402.

ITT getaways

The following specials are now available at the Information, Tickets and Travel office.

• Special rates for Six Flags Arlington, Fiesta Texas and Hurricane Harbor.

• Tickets to upcoming Dallas Cowboys home games against the Washington Redskins and Miami Dolphins. The tickets cost \$40 each.

• Fall cruises with discounts for active-duty military members, retirees and civilian employees.

For more information, call 6-5207.

Sea World tickets

Anheuser-Busch offers free, single-day admission to active-duty military, National Guardsmen, Re-servists and up to four dependents to Sea World San Antonio through Nov. 11.

The free single-day admission is also available at Busch Gardens Tampa, Fla., Busch Gardens Williamsburg, Va., Sea World Orlando, Fla., and Sea World San Diego.

For more information, call the information, ticket and travel office at 6-5207.

Disney discount

Walt Disney Parks and Resorts offers active-duty military members free five-day Disney's Armed Forces Salute Tickets for admission to Disney's theme parks, water parks and more at the Walt Disney World Resort through Dec. 19.

Active-duty members may also purchase five-day Disney's Armed Forces Salute Companion Tickets for \$99 each for up to five family members or friends.

For more information, call (407) 939-7424 or call the information, ticket and travel office at 6-5207.

Phase I/II begins

Exercise tests ability to deploy, fight

Dyess begins a Phase I/II exercise on Saturday. As the warning order drops, many troops have already started working equipment, personnel and aircraft for the deployment. This exercise is one of two remaining exercises to prepare for the upcoming Air Combat Command Operational Readiness Inspection planned for January. The exercise will test the wing's ability to mobilize and deploy to a forward operating location and begin flying combat sorties. This exercise scenario will simulate the wing deploying to Base "X," a notional base, at an undisclosed location. During Phase II of the exercise, Base "X" will be subject to a wide array of exercise Ability to Survive and Operate inputs.

Participants in the exercise are reminded:

- During the base-wide recall it is important that units be able to contact or account for everyone in a timely manner. If leaving the local area, ensure your supervisor knows how to contact you if needed.
- It is important to show a "sense of urgency" and a positive attitude in everything you do while you are in the play area.
- As per ACC's inspector general's office, cell phone use is prohibited during the Phase II.
- Individuals identified as not having a gas mask or over boots must carry a simulation letter provided by your unit.
- For marking ground crew ensembles, use 2-inch wide green duct tape to place service component (USAF), rank and first and last name on identification markings. The identification markings will be placed on the front and back of the helmet and protective mask hood and above the right breast pocket of the GCE. Use 2-inch wide masking tape marked "Sim M-9" to simulate M9 chemical detector paper will be attached to the jacket and pants placed at both ankles, both wrists and both biceps.
- Host Nation personnel are required to place an approximate 2-inch wide square of green duct tape or masking tape marked with a large letter "H" on the right breast pocket of the GCE.
- Protective masks will be inspected no later than the transition day and every seven days after in accordance with technical orders for wartime and the Department of Defense Form 1574 will be properly annotated.
- All privately owned vehicles must be out of the play area no later than 10 p.m. Tuesday. All required night shift participants must drive their vehicles to building 7008, and process through the toxic free area and be in place at their workstation no later than 11 p.m. Tuesday. 7th Bomb Wing and Inspector General inputs can begin at 12:01 Wednesday.
- Unexploded ordnance sweep teams, upon discovering a UXO, must rope off or cordon the UXO at 50 feet -- simulating 500 feet for a type A or B UXO or 30 feet -- simulating 300 feet for a Type C, D, E or F UXO. Upon discovering a UXO maintain a safe distance and do not transmit with a hand-held radio within 82 feet of a UXO. UXO sweep teams must carry UXO marking and self-aid/buddy care kits. UXO identification can be found in the ATSO guide.
- Alarm Green will be used as the normal wartime condition. Resume operations or continue recovery actions.
- Alarm Yellow will be used when attack is probable in less than 30 minutes. Protect and cover assets, go to protec-

Base X

- The purple outlined areas are the play areas.
- The red outlined areas represent the new C-CW CONOPS areas.
- The circles are the bus stops for the different colored bus routes.
- The TFA is located at 426 Third Street.

The map shows a base layout with various areas outlined in red and purple. Red arrows indicate bus routes, and purple squares indicate play areas. Labels include 'Alt WOC', 'WOC', 'TFA', and 'Cantonment Area'.

Diagram showing a person in chemical protection gear with arrows indicating marking locations: Blue arrows point to the helmet; Red arrows point to the hood, rear, and jacket; A Green arrow points to the right breast pocket.

- Use 2-inch wide masking tape marked "Sim M-9".
- Use 2-inch wide green duct tape to place service component (USAF), rank, and first & last name.
- Only Host Nation personnel are required to place an approximate 2-inch wide square of masking tape marked with a large letter "H" on the right breast pocket of the GCE.

Five locations

- Helmet Front

Sim M-9

USAF, SrA John Doe

H

tive shelter or seek the best protection with overhead cover.

- Alarm Red is divided into two categories: Alarm Red Air and Alarm Red Ground. For Alarm Red Air, seek immediate protection with overhead cover and report observed attacks. For Alarm Red Ground, take immediate cover, defend self and position and report activity.
- Alarm Black will be used when an attack is over and nuclear, biological and chemical contamination and/or UXO hazards are suspected or present. For Alarm Black, perform self-aid/buddy care and remain under overhead cover or within shelter until directed otherwise.

Procedures for the alarm conditions and other useful information are outlined in the Dyess local ATSO guide. Individuals should have their copy of the ATSO guide from the previous exercise. These are accountable items. If you were not issued one in the last exercise, a copy will be provided at the TFA.

For more information about the exercise, call 6-1606.

C-CW CONOPS

Due to exercise hostilities, Base "X" will implement Counter Chemical Warfare Concept of Operations (C-CW CONOPS), to include division of the base into Chemical Zones (Sectors) and Ground Defense Sectors and implementation of Transition Points (TPs).

TPs are established between Chemical Zones to control entrance to and exit from potentially contaminated areas and are the only authorized points by which a

person may transit the sectors.

At a TP, people can expect to see a sign indicating the sector they are entering as well as the current Mission Oriented Protection Posture level and the time of the last data update. TPs will be manned when possible.

It is vital for all personnel that only the Transition Points be used to cross between Chemical Zones (Sectors). See the 7 CES Readiness locally developed ATSO guide for additional C-CW CONOPS guidance.

Field food services

The mobile kitchen trailer in the cantonment area will provide these meals at the following times:

- **Breakfast** -- Meals Ready to Eat will be handed out from 6 to 7:30 a.m. Cost is \$3.25.
- **Lunch** -- Hot meals will be served from 11 a.m. to 12:30 p.m. Cost is \$3.25.
- **Dinner** -- Meals Ready to Eat will be handed out from 5:30 to 7 p.m. Cost is \$3.25.
- **Midnight** -- Hot meals will be served from 10:30 p.m. to midnight. Cost is \$3.25.

Ground Meal lunches area also available at \$3.25. Large food orders at any meal must be called in at least three hours in advance to 6-4861.

The TFA during exercise

All Phase II exercise players will enter and exit "Base X" through the toxic free area facility located in Bldg. 7008 at 426 3rd Street. No POVs are deployed to "Base X". Dropping off of players and parking of POVs will be in the large parking lot to the west of Bldg. 7008.

Deployed and host nation personnel must process through the TFA facility at the beginning and at the end of their shift. Personnel reporting for duty will enter at the west end of Bldg 7008. All participants must bring the following items when processing through the TFA:

- Military identification (ID) card
- Dog tags
- Ability to Survive and Operate (ATSO) guide (Dyess)
- Reflective belt
- Gas mask
- C-1 bag, with chemical ground crew ensemble
- A-1 items, helmet, canteen full of water, and web belt
- Line badge (if required)
- Simulated M-8 paper booklet

Phase II players will need the items listed above, but the TFA will only check ID cards and dog tags. Unit deployment managers will check for the remaining items before the Phase II starts to help streamline the process. Manning rosters will be used to check that player's process in and out of the play area.

After processing into the TFA, personnel will exit the building from the north side and board a shuttle bus that will take them into the play area (except for those troops authorized GOVs).

At the end of a shift, personnel will board a shuttle bus from their duty sections back to the TFA facility and enter through the north side of the building. Personnel must out-process before leaving the TFA.

Shuttle bus service

The 7th Logistics Readiness Squadron will provide shuttle bus service during the Phase II exercise. Shuttle buses will begin running at 6 p.m. on Tuesday and continue running until two hours after ENDEX. There will be a red, blue and green route beginning and returning to the TFA facility, located at Bldg. 7008 on Third Street.

The shuttle bus routes will run as follows:

- The **red shuttle** will have a 29-passenger bus starting at Bldg 7008. This route will take approximately 15 minutes to run round trip.
- This shuttle has stops for the WOC at Bldg. 4120; the control tower between Bldg. 4301 and 4302; the Fire station at Bldg. 4003; POL & Security Forces at Alert Ave; and the AWOC at Bldg. 6222.
- The **green shuttle** will only run during cantonment area shift changes. Coordinate with the TCC for run times. This shuttle will have a 29-passenger bus starting at Bldg. 7008. This route will take approximately 20 minutes to run round trip.
- The shuttle's only stop is at the entry control point (ECP) to the cantonment area.
- The **blue shuttle** will be used for the main play area. It will have one 44-passenger bus and two 29-passenger buses starting at Bldg. 7008. This route will take approximately 20 minutes to run round trip.
- It has stops for all maintenance at Bldg. 5020; the vault at Bldg. 8031; supply at Bldg. 5280; and LRS at Bldg. 8016.
- A munitions storage area stop will have prearranged shift change runs with a 44-passenger bus starting at Bldg. 7008. The route will take approximately 25 minutes to run round trip.

Sports Shorts

Airmen’s Golf Day

The next Airmen’s Golf Day is Sunday at the Mesquite Grove Golf Course. Enlisted members in pay grades E-1 to E-4 can golf for half-price. For more information, call the golf course at 6-4384.

Intramural sports

The intramural flag football and bowling seasons are now under way.

- Intramural bowling teams begin rolling at 5:30 p.m. Mondays and Wednesdays.
- The Friday Fun League is currently under way at 7 p.m. each Friday.
- The Youth Bowling League, open to kids ages 5 to 18, has also started.

For more information, call Dyess Lanes at 6-4166.

- The intramural flag football games begin at 6 p.m. Mondays through Thursdays.

For more information, call the sports and fitness center at 6-4306.

317th AG golf tournament

The 317th Airlift Group hosts a golf tourna-

ment starting at noon Nov. 7 at the Mesquite Grove Golf Course.

The cost is \$18 per person, which includes the use of a golf cart.

For more information, call Master Sgt. Leroy Haynes Jr. at 6-2818.

Bull Run registration

Registration is now under way for the 22nd Annual Bull Run.

The 4-mile fundraising run, sponsored by the Dyess Top 3 Club, will begin and end at the base picnic grounds.

For more information, contact your unit representative or call Senior Master Sgt. Mike Murphy at 6-4462.

Women’s Golf Day

Fridays are Women’s Golf Days starting at 9 a.m. at the Mesquite Grove Golf Course.

The cost is \$8 per person, which includes nine holes of golf and a 15-minute lesson.

For more information, call the golf course at 6-4384.

Outdoor rec winter hours

Outdoor recreation is open from 9 a.m. to 5 p.m. Monday, Tuesday, Thursday, Friday and Saturday.

For more information, call outdoor recreation at 6-2402.

Paintball guns

Outdoor recreation now has paintball guns for sale. Special orders are also available.

For more information, call outdoor recreation at 6-2402.

Massages

Massages are available at the Health and Wellness center. Appointments are neccessary.

For more information, call 672-6565.

Youth classes

The Dyess Youth Center is offering cheerleading, gymnastics and Kajukenbo classes. For more information, call the youth center at 6- 4797.
